“*Tonya and I attended Cedar Grover H.S. together until I transferred to Druid Hills during our 10th grade year and eventually moved back to New York in 1992. We reconnected on Facebook in July of 2009. She was sooo happy that she was expecting a baby girl. She appreciated the blessing of watching her little boy grow into the young man that she hoped him to be and her beautiful baby girl enjoying just growing! When I think back to when Tonya was a new student at Cedar Grove, I remember a strong person not yet knowing their strength, I see her quickly covering her smile because she had not yet discovered her confidence. I pray that her prayers and expectations for her children are answered beyond belief, and that her family find comfort in due time.*
