*When I share the memory of my vision of Walter (Buster) Daniels is when each and every moment when I focus on the scriptures of Daniel in book of King James where the king wanted to put the three boys in the fiery funnel and so he did order them to do so. But when they came back and told the king of how it was four figures appeared in the flames. The king had to call out to the boys in mist of flames to see if what the soldiers had stated was true. Far to his dismay he seen the boys appear out and the 4th figure also which he then knew for himself it had to be God 🙏 who protected them and watch over them in midst of danger but from this story and a true one at that the boys faith is which sustained them anyway that no weapons form against us shall prosper. I do believe as Walter has been called home and that his faith has insured all pains and he has now truly rest and earned his wings.*
